

"TROIA CHAIN"

Connecting technology with equal prosperity

A COMMUNITY BASED ECOSYSTEM

INTRODUCTION

The Troia Ecosystem has been designed specifically for people to be able to monitor, trade, invest and spend their various cryptocurrencies fast, effectively and with ease. The Ecosystem is providing professional-standart and user-friendly investment tools, which enable them to make informed cryptocurrency investment decisions. Holders of Troia Coins will receive Access to the entire Troia Ecosystem incl. all privileged features.

Troia aims to use up to 50% of the proceeds obtained from the sale of Troia Tokens during the phases of sales incl. Close-pre-public sale periods to purchase Gold, BTC and ETH in the following proportions;
Gold 35%; BTC 55%; ETH 10% (the liquidity pool).

DISCLAIMER

NO OFFER OF SALE OR CONTRACT

Thank you for reading this disclaimer because it is very important that you understand its significance before proceeding to any other section of this text.

Our White Paper is written in a simple and understandable text so that anyone who reads it may understand what it says. It will provide you with all relevant information and facts about our Ecosystem/Platform and allow anyone to determine whether or not they want to participate in our projects. Our White Paper is not a contract or an offer of sale from TROIA to any outside parties.

The plans, forecasts, or projections mentioned in this whitepaper are a work in progress and some of the estimates and projections were given may represent future claims that have not yet occurred. These estimates could be speculative and uncertain, which can lead to discrepancies between what is documented and what is actually happening.

We cannot guarantee the completeness, reliability, relevance, or accuracy of the information presented in this whitepaper.

DISCLAIMER

All material on our website and accompanying documents cannot be considered historical truths. All statements and assumptions are based completely on predictions and give no guarantees or what so ever. All available information is based on the time of its creation and therefore our White Paper is subjected to change and where necessary will be updated to comply with regulations or to improve our projects.
Uncertain factors like technical limitations, legal and regulatory issues, changes in the market/industry, and corporate decisions can affect the success of projects on our platform. Therefore TROIA reserves the right always to make changes to this whitepaper at any time for any reason.
The information provided in this document is intended to be indicative and not a
representation of TROIA's plans or intentions. If you consider joining, please note we offer no advice in any way. Our white paper is only a sharing information document. It does not give you any financial, tax, legal, or other advice. We recommend seeking a professional for guidance before you make any decision.

DIGITAL ASSETS

We want to make you aware of a number of points before you start with digital assets (cryptocurrencies).
If Cryptocurrencies are banned in your country, possession may result in risking legal consequences, high fines, and labeling our platform as a scam. So be aware of what is and what is not possible in your country/region.
TROIA executives and members will not claim any liability in this case because we have asked you to familiarize yourself with the guidelines in your country and take action on whether you are allowed to own digital assets/-money.
TROIA will not be held liable for any loss or damage caused by you falling victim to the various dangers and uncertainties that come with the purchase of our coin.

DISAGREEMENT

The content of our White Paper and all relevant documents related to our projects may be translated into other languages than the original (English). If any inconsistencies in other versions of the translation lead to disagreements, the English version will be the final reference.

WORLDWIDE OPERATIONS

To make TROIA a worldwide company, different laws and rules will meet us in our operations. TROIA expects to operate within all relevant guidelines (law & rule) stated by authorities. But if for whatever reason a license or approval is not granted by authorities/jurisdiction, TROIA legal department will make all efforts to obtain all necessary licenses in the places where it wants to operate. All announcements about our initiative, including this whitepaper, will be posted on our website and on our official social media sites.

MARKET OVERVIEW

The world is changing rapidly and new technologies in the widest range are integrated into our daily life like smartphones and the internet of things. Using Cryptocurrencies is the latest innovation in the way we pay online and offline.

The technology that makes it possible to use Cryptocurrency is Blockchain technology. Blockchain technology is the new way of storing and processing data in a fast, secure, and cost-effective way. Cryptocurrency is digital or virtual money that you can use to make digital payments through the Internet without the intervention of a bank. It's fast, safe, low in cost, and gives users more privacy because it's decentralized. Bitcoin was the first Cryptocurrency and after that thousands of altcoins were introduced. Most Cryptocurrencies are used for speculation by investors and with some Cryptos you can pay. About more than 100 million people worldwide use Cryptocurrencies. Cryptocurrencies are maturing and the number of users is growing rapidly. This creates a major opportunity for us to enter the digital world and roll out our Mission and Vision.

TEAM TROIA

Who are we, what do we want (Mission), and how we are going to accomplish our goals (Vision).

Team TROIA is an International Fintech company that combines new technologies and innovations (Blockchain Services) to develop new products & services. Our team consists of experienced IT developers worldwide and professional sales and marketing managers.

OUR MISSION

- We want to create the currency of “TRUST”.
- The Coin you can spend (utility coin).
- The Coin you can earn with.
- The Coin owned by the community.
- The Coin that can make dreams come true.
- The Coin that makes everyone happy.

Our goal is to offer our community an opportunity to create more financial and personal growth. But our BIG goal is to create proportional prosperity for all parties, company, members, and those who have less money.

OUR VISION

How are we going to do this? Step by step we will create an Ecosystem on the fasted P2P (Peer to Peer) blockchain and offer a wide range of products and services to our community members. The TROIA Coin is the utility coin of our Ecosystem which our members can use to buy products and services. Products and services to earn income but also to share income with our Help & Care projects. With the currency of TRUST, we will meet our BIG goal. When you join our community, we welcome you to our family.

OUR TROIA ECOSYSTEM

WHAT IS TROIA COIN?

TROIA stands for Troia Ecosystem Coin which is a utility token created on the Binance Smart Chain (BEP20) token that can be used for staking, payments, and exchanging value and services.

TROIA will be implemented in all TROIA Ecosystem projects. Creating more utilities will create a more natural demand for the TROIA Coin. By integrating the TROIA into the Binance Smart Chain, users can take advantage of the high speed and low fees associated with the Binance Smart Chain.

TROIA MINING APP

Staking is one of the primary use cases of TROIA Coin. By holding the TROIA Coin in a decentralized wallet for a specific period of time, users earn Rewards (TROIA's) receiving TROIA Coins will motivate members to hold the coin for a longer period and will increase demand and can contribute to the coin's overall value. Buy our TROIA Coins, download our TROIA Mining APP, and start staking. Only 10% of the total supply will be available for staking.

TROIA DEX
(DECENTRALIZED EXCHANGE)

Decentralized Exchange solution will provide our customers to make transactions without KYC and save their customer privacy. You can use our Decentralized Exchange bot only swapping our Troia Token to major tokens such as BNB, USDT etc. ; but also you can earn income by providing liquidity (staking), buying and staking (farming) and many more features that helps you to add extra tokens to your vault.

TROIA EXCHANGE

meets all up date security measures to secure all your digital assets. For this, we partner with top companies in the industry who have lots of of experience in safety and security. Our goal is to be ranked among top 30 exchanges and create high standart customer support.

TROIA COINEX
(EXCHANGE SOLUTION)

TROIA EXCHANGE is a World class Exchange platform for all your trading activities. You can trade (buy and sell) assets and use many other functionalities like P2P and Swapping against competitive fees. Our Exchange will support a wide range of digital assets, from coins and tokens.

TROIA DIGITAL BOUNDS

TROIA DIGITAL BOUNDS are unique Non Fungible Assets that provides incomes according to Bounds uniqueness, quality and other specifications. By buying TROIA DIGITAL BOUNDS you can become a shareholder of TROIA Technologies. You can also vote & govern for the future of TROIA Technologies according to your bound amount & power.

TROIA SMART TRADE ROBOT

This is the TROIA Technologies main income stream. This trade robot has been developed and tested for 5 years with the trading professionals, implemented historical cryptocurrency charts, graphs and important news and reactions of the community. It includes not only AI data, but also basic analysis and technical analysis incl. all formations.

TROIA BLOCKS (Blockchain)

TROIA BLOCKS is the name of our Blockchain and supports our Ecosystem. Our Blockchain is a 3rd generation blockchain layer 2. We choose for a Blockchain layer 2 because from a technical point of view a Blockchain layer 2 Blockchain is easier to partner with outside parties. Our Blockchain is safe, fast, secure, and scaleable, which means we can extend our capacity when necessary in the future.
At the moment our Blockchain is under construction and therefore we use the Binance Blockchain (BEP-20 Network) to start up our operations. TROIA BLOCKS will make us fully independent from others in the market and the future looks bright to realize Our BIG goal (See our vision)

TROIA LAUNCHPAD & INCUBATOR

Troia Launchpad supports new crypto projects to get listed on all TROIA Platforms. Project leaders can apply with their idea and our incubator zone will take idea from scratch to high end product at all phases. Experienced marketing and development team of Troia Technologies has all capabilities to help on this case. Launchpad zone offers projects such as pre-sale, listing, marketing, press release, social media growth etc.

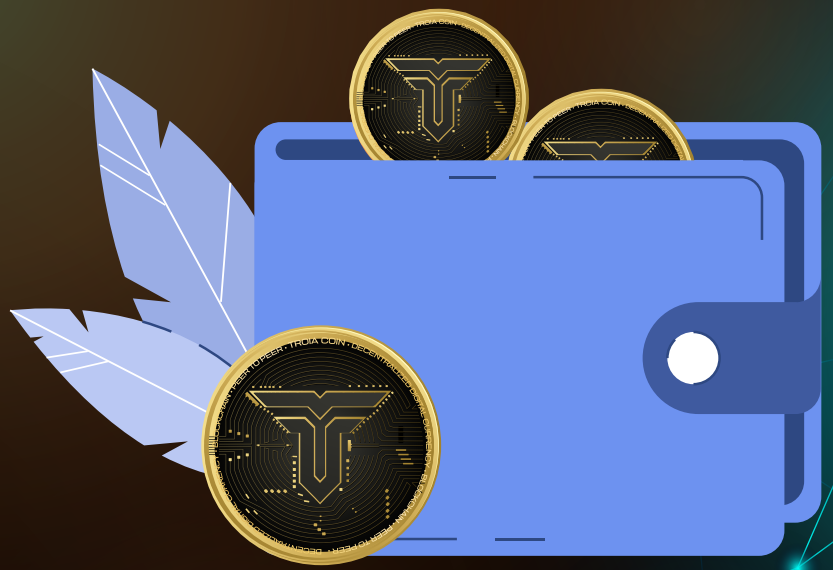

TROIA SCAN

TROIA SCAN is our Blockchain explorer.With this website, we offer you a full history of your activities. All you have to do is enter your wallet address and find all your digital transactions (Hashcode / TXID)

TROIA WALLET

TROIA WALLET is our native decentralized blockchain wallet. With this wallet, we offer you full control of your assets without KYC. This wallet will also support more than 120 official tokens as pre-loaded and more than 10k token according to their chain with low cost transaction fees and supporting NFT storage.

TROIA GAMING

Online gaming is super popular with all ages. TROIA GAMING will offer all sorts of games such as puzzle games, card games, action games, sports games, arcade games, and many more games. Enjoy our Game Platform and earn rewards.

TROIA NFT

NFT stands for Non-Fungible Tokens. People use NFTs to buy and sell digital assets like art, paintings, music, collections, and many more items on NFT markets. The process to buy or sell is done through smart contracts on a blockchain because it is safe and secure. When you buy TROIA NFT's you will open the gates of TROIA Exclusive CLUB. This special treatment will help you on all phases of modern life. This NFT is just your personal assistant that provides extra monthly income, special discounts on s elected brands and personal care such as car rental, home repair etc. These are just basic treatments from TROIA NFT's.

TROIA SECURE INVESTMENTS

Secure Investments are low risk (minimum chance of losing money) opportunities to earn extra income. We will provide a wide range of different investment projects to our community in the near future. This will meet with one of the BIG goals we have written in our mission, equal prosperity. All profits will be a mutual benefit for the Company, Members, and our Help & Care projects (those who have less)

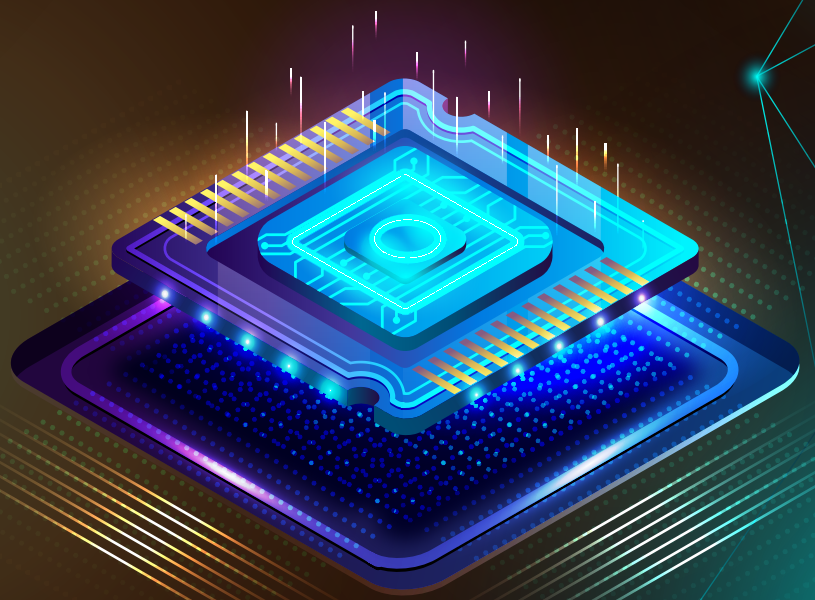

TROIA METAVERSE GAME

A metaverse game is a type of online game that takes place in a virtual World or alternate reality. Here, players can interact with each other and the environment in real time. They often include social features such as chat rooms, avatars, and virtual marketplaces where players can buy and sell items. The TROIA Ecosystem support the world of Metaverse because we also prepare ourselves for new features and new technology developments in the digital world. Our Metaverse projects will give you lots of luck, pleasure, and Rewards.

TROIA DIGITAL SMART CHIPVAULT

Troia Vault is your personal storage that store your digital assets and many more special features that is all in one. You can also store your important documents, photos, videos with this secure vault. This vault includes Digital Wallet which we offer our members to keep and store all their cryptocurrencies. Digital Wallet is a decentralized wallet which means only you have access to your digital assets. We use the latest security protocols to protect all your assets. This Smartcard also offers virtual prepaid card that you can use it on your internet shopping securely and seamlessly.

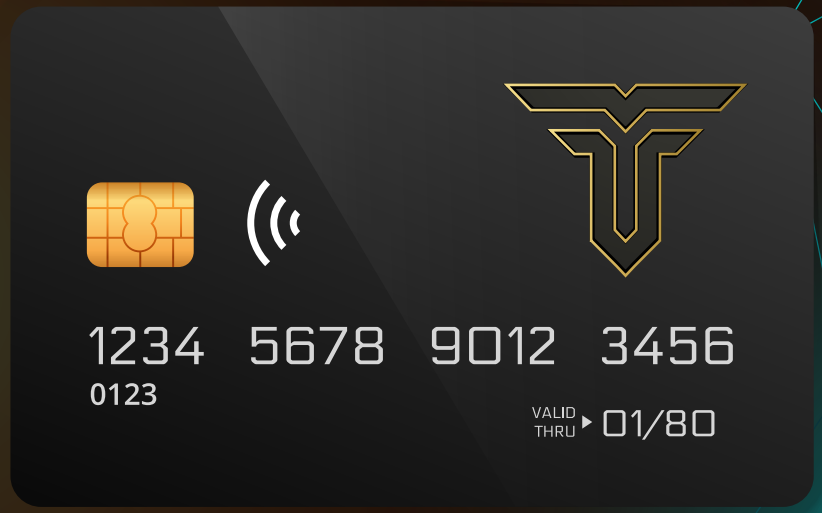

TROIA PAY

Troia Pay is a banking solution provided by Troia Technologies. This is an online banking app that has many features such as normal bank. This banking app has features such as borrowing, lending, credit and debit card features.

TROIA PAY DEBITCARD

The TROIA Debitcard is our payment card that you can use to make online and offline purchases and cash withdrawals. You can Top up your debitcard in many ways but also with TROIA Coins. This makes our debitcard unique and give you full control over your finance. The TROIA debitcard makes our Ecosystemcomplete (money in and money out) andwe wish you a lot of pleasure using our debitcard.

TROIA E-STORE

By growing our community we will make special deals with Ecom-merce platforms to receive extra discounts and benefits for our members. Earned Rewards in our Secured Investment projects, can be used to Top up your debitcard. From now on Shopping will be a great experience

TROIA SOLAR

Energy problems and pollution is a worldwide discussion. As a company we acknowledge this and we also want to contribute to Greener World . Thats why we have created in our Ecosystem the Solar Project.
With Solar projects, we will create all kinds of projects and use natural sourcecs to generate new ways to implement energy in our Daily lives. This section will focus on transport, housing and agriculture.

TROIA SMART CITY

TROIA City is a social welfare and community development Project in real estate. We will partner with real estate companies to develop housing/retail projects. Our community members will have the opportunity to use the TROIA Coin to buy or rent real estate. The TROIA City project will be extended in the near future with many more ideas to be implemented to benefit all social rankings.

TROIA TRUST (HELP & CARE)

TROIA Trust is a nonprofit project of our Ecosystem. Our goal is really to bring trust into the hearts of the people. We will help to provide basic needs as written in our protocol. All our nonprofit projects will be financed by a specially developed business model which will create

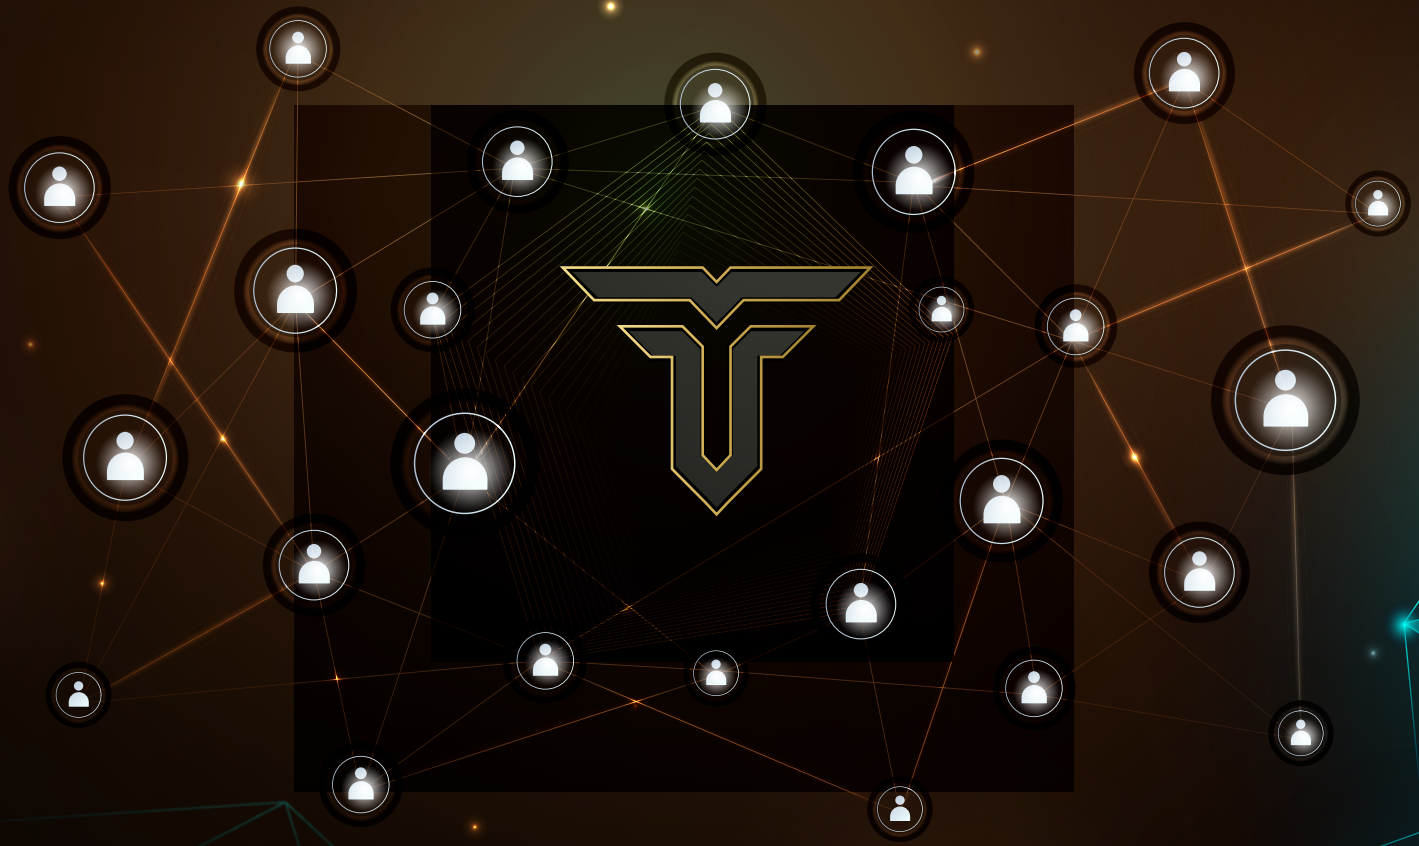

TROIA TRAVEL

We will partner up with travel industry and develop an exclusive travelcard for its members. Discounts on plane tickets, hotels, rental cars, and many more deals to benefit our community. Our exclusive travelcard will make a difference in the way you travel because you will also have the option to pay with TROIA Coins.

TROIA SOCIAL

Troia Social is an activity zone for Troia Ecosystem. Troia Social has great capabilites such as creating major events, attending important blockchain events as sponsorship & partnership, making concerts and gatherings.

TROIA CHARITY

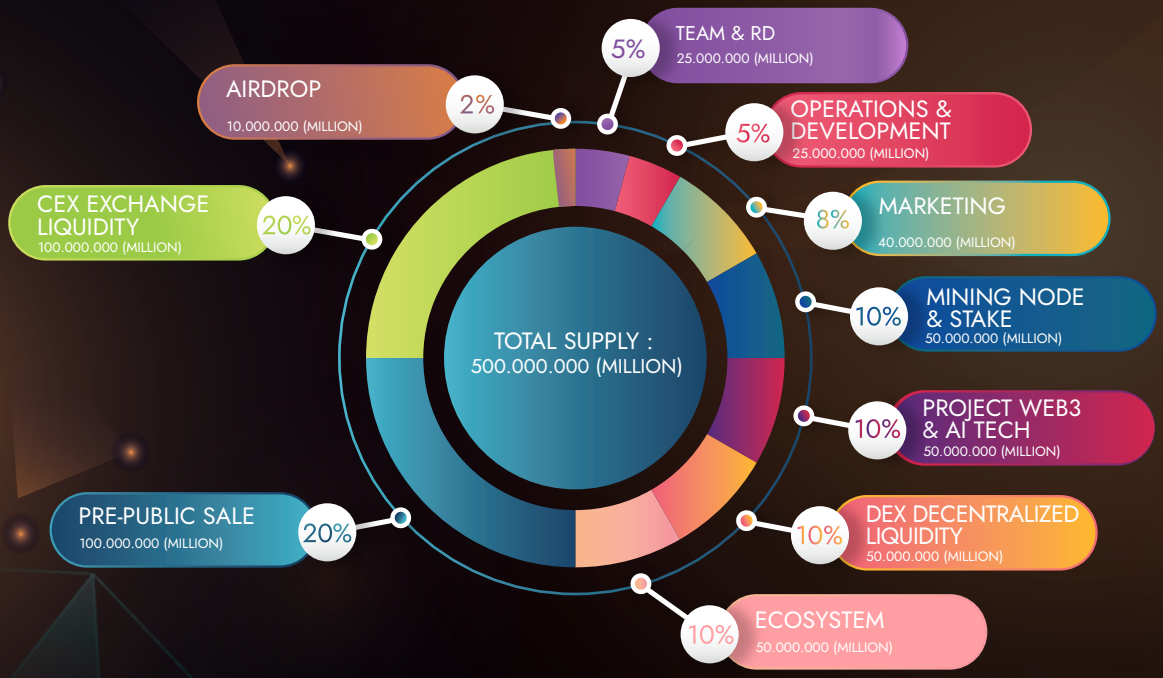

Troia charity aims to help street animals foundations, students who needs scholarship and poor people living in different parts of the world.
Troia Charity decided to give 2% of their net revenue to this Charity actions for their community

TROIA GREEN

Global World Pollution needs a Global World Solution. TROIA Green will focus on a greener and healthier world in the future. To reach this goal we are open to working with all parties that also want to achieve a Greener World. We will offer our community a variety of GREEN projects to help creating a Greener world. Making changes always starts with changing yourself.
